Acknowledgement

We would like to first and foremost thank God for giving us the opportunity to give us life to work on this project.

We would like to acknowledge the good skills and ethic by ACCP team that has enabled us learn more so far as we can develop a website.

Also we would like to acknowledge our faculty and school at large for the good things that have offered us as our course is concerned.

We would also like to thank the team for participating in the development of this website.

Problem Statement

Merciado Amusement park is now prime focus of the city and nation. It is made by Seth groups of companies. The development of this park took 5 years to get their desired finished product. It has become nation pride now. The area of theme park is about 45 acre land. The Management has put all the efforts to keep the attractions operational. The Merciado management wants you to develop the website of the park which should include describing all the attraction of the park and also allow the user to book the ticket online.

Requirement Specification:

The Web site is to be created based on the following requirements.

- The home page must be designed with beautiful color combination with all the required links defined properly. Also all the section of the webpage must be in used to avoid the blank space.
- Different Zones and attraction, Restaurants, Entertainment, Tickets and Prices, Gallery be described in different webpage.
- Prices value must be show the differences as per the day (like weekend or weekday or family pack).
- About us, Contact Us, Disclaimer must be included.
- Creating an account facility can also be added.
- Dummy procedure for booking the ticket can be added.
- Sitemap must be added.
- Navigation of the project must be made smooth.

Project Objectives

We needed to achieve a responsible website where the user could easily use our website to book for a place in the park or even visiting our entertainment page where we have our gallery to see our park how it looks like

Realistic-we were realistic in this project as we did not copy any website of our kind

Hardware / Software

Hardware

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 64 Megabytes of RAM or better

Software

- Notepad/HTML editor
- Dreamweaver
- IE 5.0/ Netscape 6.0

Synopsis

We developed this site using Dreamweaver cc 2014. The Mercado Amusement Park website gives an overview of the various activities that are featured in the park for both adults and children, and also enable the users purchase event tickets from the comfort of their home or workplace.

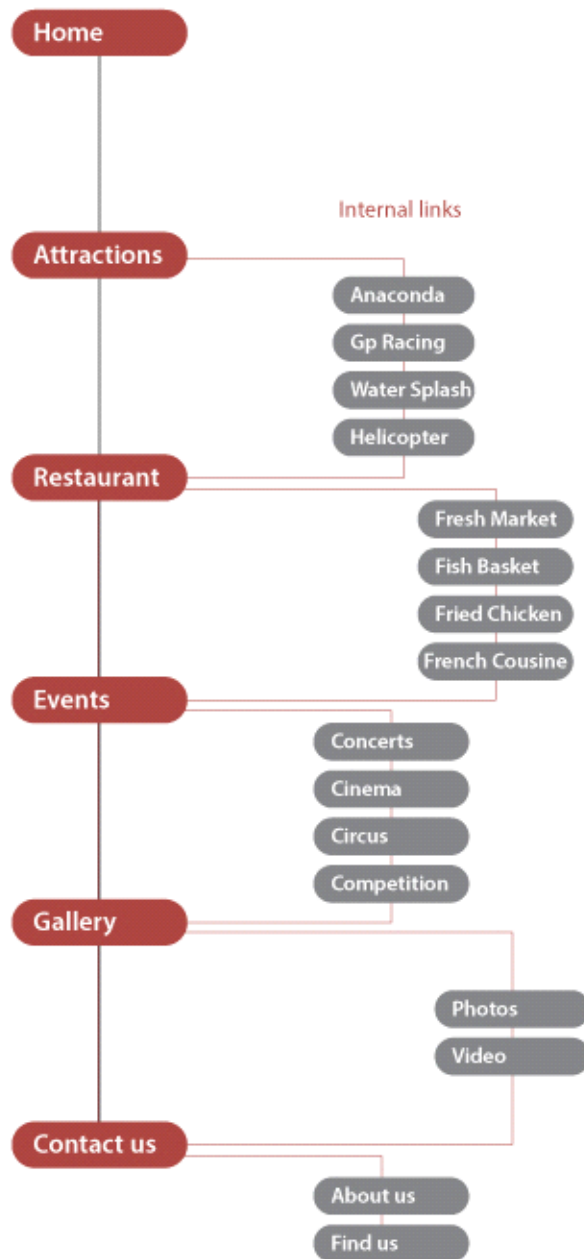

Analysis

The Mercado Amusement Park Website folder consists of various folders. The css folder consists of the styling that is used in the website. The engine1 website consists of the css and scripts that are used in the gallery page to enable the functioning of the image slider. The images folder consists of the images used in the website and inside the images folder there is a data1 folder which has the images to the images slider. The media folder contains a short video of the Mercado Amusement Park used on the gallery page. The pages folder has the HTML files of all the web pages used except the index page which is located in the root folder. Screenshots of how the website will be viewed on desktop tablet and mobile are saved in the screenshots folder.

<h1 class="headerwhite">About us</h1>

<p class="textwhite">Merciado Amusement park is the largest Amusement park in the nation, developed by the Seth group of companies, Merciado is a fun place jam packed with wonderful experiences and activities for the family.</p>

<p class="textwhite">There are all types activities in the park for both children and adults alike.

Merciado Amusement park is now the prime focus of the city and nation, the ideal weekend get away for the family and with our spacial rates offered during the week you are asured to experience a fun colorful crowd of visiters no matter which day of the week you choose to visit .</p>

<p class="textwhite">This amazing establishment was build by the world famous Seth group of companies. Spanning over an area covering 45 acres of land, it took 5 years to build the regions leading entertainment wonderland. With more rides, shops, restaurants and events than any

other recreational area in the East Africa region, Mercado is definately the place to visit during your time in Nairobi, so whether you are a city resident or a tourist visiting the city for the first time, make sure you take some time to spoil yourself by visiting Mercado, the happiest place in town.</p>

CSS Code

Boilerplate css

```
/*  
/*  
* HTML5 ☆ Boilerplate v3.0.2  
*  
* What follows is the result of much research on cross-browser styling.  
* Credit left inline and big thanks to Nicolas Gallagher, Jonathan Neal,  
* Kroc Camen, and the H5BP dev community and team.  
*  
* Detailed information about this CSS: h5bp.com/css  
*  
  
/* =====  
HTML5 display definitions  
===== */  
  
article, aside, details, figcaption, figure, footer, header, hgroup, nav, section { display: block; }  
audio, canvas, video { display: inline-block; *display: inline; *zoom: 1; }  
audio:not([controls]) { display: none; }  
[hidden] { display: none; }  
  
/* =====  
Base  
===== */  
  
/*
```

- * 1. Correct text resizing oddly in IE6/7 when body font-size is set using em units
- * 2. Prevent iOS text size adjust on device orientation change, without disabling user zoom: h5bp.com/g

```
html { font-size: 100%; -webkit-text-size-adjust: 100%; -ms-text-size-adjust: 100%; }
```

```
html, button, input, select, textarea { font-family: serif; color: #222; }
```

```
body { margin: 0; font-size: 1em; line-height: 1.4; }
```

```
/*
```

```
* Remove text-shadow in selection highlight: h5bp.com/i
```

```
* These selection declarations have to be separate
```

```
* Also: hot pink! (or customize the background color to match your design)
```

```
*/
```

```
/* Dreamweaver: uncomment these if you do want to customize the selection highlight
```

```
*::-moz-selection { background: #fe57a1; color: #fff; text-shadow: none; }
```

```
*::selection { background: #fe57a1; color: #fff; text-shadow: none; }
```

```
*/
